WXGA

6,000-lumen WXGA performance in an entry-level laser projector, ideal for replacing existing lamp-based units.

The EB-L610W is an entry-level laser projector and the ideal replacement for existing lamp-based models in meeting rooms and educational establishments. It offers outstanding 6,000-lumen brightness, WXGA resolution, and a range of useful features including HDMI connection and lens shift.

Affordable laser performance
The EB-L610W offers impressive 6,000-lumen brightness and WXGA HD-ready resolution at an affordable price, meaning you can upgrade to laser performance and reliability without paying a premium. Pin-sharp image quality and equally high White and Colour Light Output give your presentations impact, even in brightly-lit rooms.

Reliable and durable
The EB-L610W is based around Epson's proven laser technology, which offers fit and forget reliability to keep maintenance to a minimum. The projector is covered by a five-year, 12,000-hour warranty.

Easy, flexible installation
Lens shift and a smaller, lighter casing than products of similar brightness[1] makes it easy to replace existing units with the EB-L610W, while laser technology means these projectors can be mounted at and project from any angle, making them ideal for any scenario.

Stylish new design
A fresh, new casing design means that the EB-L610W will look completely at home in even the most style-conscious of new developments. It also comes with a matching rear cover to conceal leads and connectors, for a streamlined look.
